

Support & Maintenance PKI by PrimeKey

Keeping your
Security Solution
up to date and
reliable in the
future

IT Security is a moving target and it is crucial to keep your solution up to date in order to keep a high level of security. With PrimeKey Support & Maintenance you will get continuous updates of your PKI solution, and professional support for any questions or issues.

Support & Maintenance for PrimeKey PKI

IT Security is a moving target and it is crucial to keep your solution up to date in order to keep a high level of security. With PrimeKey Support & Maintenance, you will get continuous updates of your PKI solution, and professional support for any questions you may have.

If you have chosen a PrimeKey solution for your PKI, you are obviously serious about your security. You know the risks of not protecting your data and your communication properly, and have taken the necessary precautions. But what happens next?

Keeping your security up to date

IT Security is in constant development as new standards, new requirements and new threats come frequently. Malicious attacks often aim at known limitations where their targets have fallen behind in updating their security solutions. Having the PrimeKey Support & Maintenance you can feel secure in your PKI being up to date with the latest releases, patches and updates.

Take part of the latest releases

PrimeKey developers are passionate about maintaining the high quality of our products through continuous updates and upgrades. Each new release contains improvements and upgrades to the product

Highlights

- Keeps your security solution up to date
- New releases and updates for your software
- Hardware support if anything happens to your PKI Appliance box
- Support straight from the source with PKI professionals

functionality, enhancing the software and keeping it up to date with regulations. By subscribing to PrimeKey support and maintenance, you will automatically gain access to these new releases and upgrades, ensuring the highest quality of your PKI implementation.

Get support - straight from the source

If you experience a problem with your software or hardware (for PKI Appliance), PrimeKey Support & Maintenance gives you access to support straight from the source. That means that the same PKI professionals who developed your solution are there to help you solve your problem.

Support pricing will depend on the following variables:

- Service Level Agreement
- Deployment size (defined by the number of users and installations)
- Duration of the contract (with multi-year and prepayment options)

You get...

- The fastest, securest and most reliable solutions; the PrimeKey Enterprise software
- The highest level of operational security for the core of your PrimeKey PKI
- Direct access to critical knowledge
- Developer-to-developer discussion and analysis
- Fulfilled audit and policy requirements
- ... and more

About PrimeKey

PrimeKey Solutions AB is one of the world's leading companies for PKI solutions. PrimeKey has developed successful solutions, such as EJBCA Enterprise, SignServer Enterprise, PKI Appliance and PrimeKey SEE. PrimeKey is a pioneer in open source security software that provides businesses and organizations around the world with the ability to implement security solutions such as e-ID, e-Passports, authentication, digital signatures, unified digital identities and validation. Our products are Common Criteria and FIPS certified. We have numerous Webtrust/ETSI and eIDAS audited installations, and our internal processes are ISO 9001, 14001, and 27001 certified.

PrimeKey has offices in Stockholm, Sweden; San Mateo, USA; and Aachen in Germany. Together with our global network of technology and resell partners, we are proud to count many of the industry leading companies and institutions within IT, Telecom, Banking, Industrial, Public CAs, and different branches of Government as our long-time customers.
